May 7, 1976

Labor Committee
Room 339, Del Webb Towne House
San Francisco, California

Gentlemen:

The Board of Supervisors has been assured by George Christopher that the Labor Committee's proposal of May 6, 1976, has the approval of all of the members of the Labor Committee. This is indeed encouraging, because aside from some points of questionable legality, with only one other exception, the unions' proposal is substantially the same as the City's May 3, 1976, proposal to the unions. The only exception of substance is that the unions' proposal adds an eleventh member to the Study Committee.

The Board has given thoughtful consideration to the proposal that the Joint Committee should consist of an eleventh member to be selected by the ten persons designated by the Board and the Labor Committee.

While in theory the Board of Supervisors would retain their options and prerogatives to make the final decisions as democratically elected representatives of the people, realistically the recommendations of the Joint Study Committee (which might well reflect the opinion of the one person holding the balance of power) would exert by its very nature a substantial influence upon such elected representatives and would in a practical sense deprive the people of San Francisco of their right to look to the Board of Supervisors to account for their stewardships and for the expenditure of public funds. We can understand, however, that such a proposal might seem eminently proper to those who are not charged with the ultimate responsibility, to wit, to preside over the unveiling of the property tax rate in September.

Mr. Christopher recognized this fundamental principle of San Francisco government in the May 5th edition of the *San Francisco Examiner* when he stated: "... the Supervisors do have the final legislative decision which by law they cannot delegate."

The Board of Supervisors agrees with Mr. Christopher's stated philosophy — yet is mindful of the Labor Committee's expressed need for an eleventh member of the Joint Study Committee. As was noted above, the eleventh member of the Joint Study Committee is an extremely important member; therefore, the choice of who is to be the eleventh member is an extremely important choice. Considerations of who shall be appointed as the eleventh member should be made within the following parameters:

- (a) Must be responsible to the taxpayer, i.e., an elected official of the City and County of San Francisco
- (b) Must be an elected office-holder responsible for the tax rate of fiscal year 1976-77
- (c) Must have City-wide budgetary authority.

The obvious, and only acceptable, choice to the Board of Supervisors is Mayor George R. Moscone, particularly since his participation is required by the Charter to declare a state of emergency should such become necessary to implement Section 3 of the attached agreement.

It should be stressed that upon transmittal of the Labor Committee's proposal, Mr. Christopher emphasized that the proposal needed further refinement.

In a spirit of good faith and in order to have a precise agreement, the Board of Supervisors submits the attached refinements of the Labor Committee's proposal for its consideration and acceptance.

Very truly yours,

QUENTIN L. KOPP
President, Board of Supervisors

NEW BUSINESS

Consideration Continued

The following from Finance Committee with recommendation "Do Pass After Amendment" was taken up:

Annual budget of the City and County of San Francisco for the fiscal year 1976-77.

File 100-76-8

Supervisor Barbagelata presented the following statement on behalf of the Finance Committee:

The Finance Committee, Supervisors Molinari, von Beroldingen and the undersigned, herein present to the Board its recommended City and County Budget for the fiscal year 1976-77.

Initially, the Committee commends and thanks Controller John Farrell, his budget assistants Thomas Nerney and David Fong, the Mayor's Budget Analyst, Rudolf Nothenberg, and their staffs for their valued assistance and cooperation. All of these persons expended long hours to guide the Committee in its recommendations.

After completing an intensive record-breaking, four-week budget review, Supervisors Molinari, von Beroldingen and I submit the Finance Committee recommendations to the Board with unanimity.

As previously announced, all members of the Board were cordially invited to attend the Finance Committee's departmental hearings and budget sessions, and to favor the Committee with any recommendations they might have to offer. The Committee welcomed those who found it possible to attend, and the comments of all who submitted them.

The budget data of the School District and the Community College District are not included below because these budgets, by law, are not subject to either review or action by the Board.

COMPARATIVE BUDGET DATA

1975-76	Budget	\$726.7 million
1976-77	Mayor's Recommended Budget	\$775.2 million
1976-77	Finance Committee's Recommended Reduction of Mayor's Budget	\$ 34.2 million
1976-77	Finance Committee's Recommended Budget	\$741.0 million

Based on readily available records, the Finance Committee's recommendations represent the largest total reductions in the City's history, and have resulted in only a 1.97 percent increase from the current year's budget.

PERSONNEL DATA

In addition to the Mayor's reductions, the Committee has recommended that 703 new and existing positions be eliminated. For many of the new and existing vacant positions which were approved for 1976-77, the funding has been provided so as to be available when Civil Service anticipates it can provide the personnel. The combined effect of these actions results in an approximately \$18.8 million savings.

In keeping with the thinking of the Board and in response to the demands of the taxpayers, the Committee has incorporated a provision in the budget for inclement weather conditions affecting a few classes of employment. If the Board does not desire to implement this provision, the Committee will support the majority thinking of the Board. However, it should be noted that the non-acceptance of this provision would result in a budget increase in personnel costs amounting to \$1.6 million. Any member that desires to delete this provision may make the appropriate motion to do so.

Recent increases to retirement contributions for City employees, in accordance with the recommendations of the Retirement Board's consulting actuaries, will add an estimated \$17 million which has not yet been reflected in this year's budget.

DISTRICT ATTORNEY

Excluding the mandated Family Support Bureau, the Mayor approved 57 new positions for the District Attorney's Office. This represents nearly a 49% increase in the existing staff of 117. With regard to the recently created Family Support Bureau, the Mayor approved 121 positions on a permanent basis. While the Committee recognizes the fact that the crime rate has increased, it believes that the District Attorney must operate in the most efficient, effective and economical manner possible and has therefore recommended the deletion of 41 of the 57 new positions approved by the Mayor. However, it has recommended the approval of 15 new positions for the Homicide, Robbery, Burglary, Consumer Fraud, Felony Assault and Theft Units and 1 administrative position.

As a result of temporary funding in the latter part of the current fiscal year, the District Attorney has already filled 104 of the 121 Family Support Bureau positions. While the Committee recognizes that this mandated program is estimated to be self-sustaining, approximately 25 percent of the revenues must result from the successful efforts of the new employees to effect collections for child support from absent parents. Whether or not sufficient collections to supplement the Federal and State reimbursements will completely eliminate the need for an ad valorem tax requirement in this program is not absolutely known at this time. The Committee notes that the District Attorney's budget explanation itself states that the budget request is based "... entirely on speculation . . ."

The Committee questions whether quickly hiring a large staff for a new Family Support program costing over \$2.3 million is prudent and has recommended the elimination of the 17 new positions which have not yet been filled in this fiscal year. Further, the Committee has decided that any positions in this Bureau be immediately frozen as they become vacant and is requesting the District Attorney to submit a detailed program evaluation report

to the Finance Committee by April 1, 1977.

FIRE DEPARTMENT

Currently, the Fire Department has 190 unfilled positions. The Committee has recommended that 82 of these vacant firefighter positions be unfunded. This would result in a savings to the taxpayers, *with no decrease in service*, of \$2.5 million. The Committee did approve \$1.0 million for overtime. The Committee has authorized the filling of the remaining 108 vacant positions effective November 15, 1976. The Committee decided not to fill these positions prior to November 15 since depending on the outcome of the June and November elections, the salary and retirement costs for uniformed personnel could be as much as \$1.0 million annually less than the current costs for these 108 positions. Such savings would magnify into additional millions of dollars over the service life of these employees. The Committee has reviewed all of these recommendations with the Chief of the Department.

POLICE DEPARTMENT

The Police Department's budget has a total amount of approximately \$570,000 for a Community Relations Program, including funds for 15 uniformed personnel. The Committee stands solidly behind the strengthening of the Police Department. However, the Committee urges the department to obtain available State or Federal funds to finance a portion of the Community Relations Program rather than entirely using ad valorem taxes. In this regard, the Committee decided to delete 1 Sergeant and 6 Police Officers effective October 1, 1976, with the hope that these classifications, which are assigned in the Community Relations Program, can be funded with outside grants. Further, in view of the 120 vacant positions in the department, the Committee has recommended the unfunding of 28 uniformed positions *which will not reduce the current manning of the department*. The Chief of Police, at the Committee's request, determined which positions should be unfunded. The Committee recognizing the need to maintain efficient and safe police vehicles, has recommended the approval of 175 new vehicles. Further, the Committee substantially supports the balance of the Department's budget.

MUNICIPAL RAILWAY

The Committee has recommended a cut in the platform wages in the amount of \$1.2 million, which will maintain the same level of service currently being provided. It has also recommended a reduction of \$556,227 in order that platform employees no longer be paid accident compensation on the first day of their injuries on duty, but rather to receive the same benefits as miscellaneous employees. Further, the Committee deleted a \$1.5 million trust fund which is set aside in the budget to be paid to the Transport Workers Union of America. The Board, at its discretion, may re-

store this fund in August at salary setting time for platform employees for the 1976-77 fiscal year. On the advice of the Budget Analyst, the Committee has also recommended a cut of \$543,063, since it has been determined it would be more economical to effect the rebuilding of engines and transmissions for all buses on an in-house basis in lieu of accomplishing some of this work through an outside contract. A continuation of this work on an in-house basis should not affect either the level of service or the safety of the buses. Finally, the Committee has recommended the deletion of 73 vacant positions, and was guided by the department in determining which positions should be deleted. This action will result in a savings of \$1.4 million.

SAN FRANCISCO GENERAL HOSPITAL

The new San Francisco Medical Center is expected to open later this year. As a result, the Committee has recommended the approval of 71 new positions. The Committee has recommended the deletion of 97 vacant positions and, at the request of the Committee, the deleted positions were selected by the Department of Public Health personnel. The deletion of the 97 positions will result in a cost reduction of \$1.5 million.

LAGUNA HONDA HOSPITAL

The Committee has recommended the filling of 52 vacant positions, including revenue-related positions of Billing and Collections Supervisor and Head Accountant, and various nursing positions. Generally, they represent the top priority positions of the department. However, the Committee, noting that the average daily census has declined at Laguna Honda, has recommended the elimination of 87 vacant positions, resulting in a cost reduction of \$1.4 million.

COMMUNITY MENTAL HEALTH SERVICES (CMHS)

The Committee is alarmed with the realization that (1) various Federal grants supporting CMHS programs are significantly declining, and (2) the Short Doyle revenues are inadequate to limit City costs to 10 percent of program expenditures. These findings were noted in the Budget Analyst's management audit report completed in January, 1976. In fact, the Mayor's proposed budget for CMHS contains an ad valorem tax requirement of over \$4.4 million in addition to the City's required ad valorem matching funds for the Short Doyle and other grant revenues. The Committee, therefore, has recommended reductions totalling approximately \$1.2 million, with emphasis on retaining professional staff. Most of the specific reductions recommended by the Committee were selected by CMHS personnel at the request of the Committee. The Committee has recommended approval of a new position of Billing and Collection Supervisor. It is the hope of the Committee that this position will assist CMHS in implementing

an adequate billing system in order to realize a substantial increase in patient fees, including fees due from insurance companies. As noted in the aforementioned management audit report, the existing inadequate billing system has resulted in a loss of up to \$3 million of such fees. The Committee has recommended approval of \$43,500 in the administration budget of the Department of Public Health for an outside consultant to make an evaluation as to the quality of treatment provided by CMHS as well as to evaluate the other programs throughout the Department. Upon completion of the portion of the report relating to CMHS, the Committee will carefully analyze the recommendations with a view toward a reorganization of CMHS.

BOARD OF SUPERVISORS

The Board of Supervisors' Budget Bureau has been strengthened through the approval of three new positions which will be funded effective January 1, 1977. This additional staff should more than pay for itself through the continued effort by the Budget Bureau to determine facts and make recommendations with a clearcut objective of effecting hard cash savings for taxpayers. A top priority of the Budget Bureau will be to serve as the chief economic advisor to the Board of Supervisors. This Bureau will provide financial data and related statistics on applicable proposed legislation. Such data can then be used by the Board members in their decision-making processes. Reports to the Board on the economic issues will contain both the pluses and minuses of the proposed legislation. In priority order, the Budget Bureau will fulfill the following responsibilities:

- (1) Review the annual budget and report all recommendations upon completion of such review.
- (2) Analyze and report on proposed legislation and any other matters wherein financial data and related statistics could be pertinent in the Board's decision-making processes. These reports will include the estimated costs and the pluses and minuses of the applicable issues.
- (3) Compare the current years' budgeted revenues and expenditures with actual revenues and expenditures, and report such data, together with resulting surpluses or deficits, on a monthly basis.
- (4) Estimate the annual tax rate and include in such estimates the data obtained from the Assessor's Office relating to revisions in assessed valuation.
- (5) Institute or cause to be instituted a full program budgeting system for the entire City and County budget.
- (6) Prepare annual projections of revenues and expenditures of the subsequent five fiscal years and make recommendations for expenditures compatible with revenue estimates.

COUNTY CLERK

The County Clerk requested 26 new positions to deal with his increased mandated responsibilities. The Committee has recommended approval of 12 of the 26 positions requested as a result of this increased workload.

PUBLIC DEFENDER

As a result of increased workload, the Committee has recommended approval of 12 new positions including 9 Attorneys on a permanent basis which the Court had already mandated.

SHERIFF

The Committee has recommended approval of 35 new positions for the Sheriff including 29 Station Officers for the City Prison whose jurisdiction has been transferred from the Police Department to the Sheriff, and 6 Rehabilitation Counselors to provide education opportunities and professional counsel to the inmate population.

PUBLIC LIBRARY

The Committee believes that through increased efficiency, the Public Library could reduce personnel without a corresponding reduction in services. Therefore, the Committee has decided that as the budgeted positions for Library Pages, Library Assistants, Library Technical Assistants, and Librarians become vacant in fiscal year 1976-77, such positions will continue to be frozen in order that a reduction in staff can be effected without layoffs. As such positions are vacated, the Finance Committee urges the Public Library to make reassignments in order that none of the branch libraries have to be closed. If the Public Library decides that services must be reduced, the Committee urges that the Library consider closing the Business Branch unless it establishes fees which would sustain the operations of this branch.

MUNICIPAL EMPLOYEES RELATIONS PANEL (MERP)

The Committee believes that the functions of MERP, including the improvement of employer-employee relations, could be handled more effectively through the Civil Service Commission. Therefore, the Committee has recommended the elimination of MERP but has left \$49,448 in this budget for reappropriation to the Civil Service Commission.

DEPARTMENT OF SOCIAL SERVICES

The number of General Assistance recipients in San Francisco (8,765) as compared to our population (671,000) is shocking. This welfare program is 100% funded from local ad valorem taxes. San Francisco, as of 1976, had from 3.5 to 17 times as many recipients per capita as did other large counties with population in excess of 700,000. The Committee believes that the following comparisons

clearly indicated that this program is in immediate need of drastic major reforms.

County	Population	Number of General Assistance Recipients	Number of Times Per Capita that San Francisco's General Assistance recipients exceeds other counties
Orange	1,400,000	1,056	17 times
Marin	216,000	196	14 „
Monterey	247,000	351	9 „
Riverside	460,000	616	10 „
Los Angeles..	7,100,000	15,025	6 „
San Mateo ..	574,000	1,207	6 „
San Diego	1,360,000	4,000	4.4 „
Alameda	1,100,000	3,712	4 „
Santa Clara..	1,100,000	4,138	3.5 „
San Joaquin..	290,000	1,040	4 „
Contra Costa	587,000	2,294	3.3 „
Sacramento ..	637,000	3,395	2.5 „

The total amount approved by the Mayor for General Assistance is \$7.8 million. The Committee has recommended a cut of \$3.9 (50%). The Committee strongly believes that the General Assistance rolls must be drastically reduced in San Francisco in line with other Bay Area counties, and is therefore insisting that the Department manage with a reduced General Assistance budget. It is apparent that the Department policies and those of other counties are not in agreement. Also, that proper management will divert large numbers of general relief clients to State and federally funded programs. The amount the Committee budgeted for these programs is comparable to the most liberally operated programs of the Bay Area counties. It should be noted that San Francisco in comparison to population has 3.3, 4, 3.5, 6, and 14 times as many clients as Contra Costa, Alameda, Santa Clara, San Mateo and Marin counties respectively.

The Committee believes that the minimum monthly grants to qualified recipients should be increased as soon as the program is under control and in line with the ratio of users to population in other comparable counties.

The Committee has recommended approval of 21 new positions for the Department in order to strengthen the quality of eligibility determinations, including two new positions reporting to the Controller for the purpose of monitoring and auditing eligibility determinations and aid payments made to welfare recipients.

SINGLE MEN'S REHABILITATION CENTER

The Committee has recommended phasing out the Single Men's Rehabilitation Center (SMRC) program by providing this program

with funding for only seven months. The Committee noted that many of the residents at SMRC, who have alcoholic problems, continue to be treated at SMRC on repeated occasions without resulting in substantial beneficial rehabilitative effects. It is the Committee's opinion that these unfortunate people will best be served by the City's Bureau of Alcoholism.

AMENDMENTS TO THE ADMINISTRATIVE PROVISIONS OF THE ANNUAL APPROPRIATION ORDINANCE AND ANNUAL SALARY ORDINANCE

Based on data furnished by the Controller and the Civil Service Commission, the Committee recommends amendments to the Annual Appropriation Ordinance and Annual Salary Ordinance in accordance with the attached reports from the Controller and the General Manager, Personnel. In the absence of contrary directives from the Board, the Committee will proceed further as recommended therein.

At the regular Board meeting of May 24, I will move that the budget, as amended by the Board in accordance with the Committee's recommendations, be adopted.

Statement of Mayor George R. Moscone:

June 17, 1976

Board of Supervisors
City and County of San Francisco
Room 235 City Hall
San Francisco, California 94102

Honorable Board:

I attach hereto my report as a member of the Joint Study Committee created by the Board of Supervisors as part of the agreement of May 8, 1976, with the then-striking craft unions of the City and County of San Francisco. Although the City and County of San Francisco and the striking unions found themselves to be millions of dollars apart in their respective positions during the course of the strike, the evidence presented before the Joint Study Committee demonstrated to me the need to adjust the salary standardization ordinance passed by the Board of Supervisors and signed by me by approximately \$240,000. I will appreciate your careful consideration of my recommendations.

Respectfully yours,
GEORGE R. MOSCONE
Mayor

The duty of the Joint Study Committee is to report to the Board of Supervisors findings and recommendations based on facts developed during the six weeks in which the committee took testimony. The committee met in formal session for some 39 hours and it is appropriate that I begin my report by complimenting all of the participants; the labor leaders and their attorneys, the members of the Board of Supervisors, and the various City staff

members for their seriousness, their attentiveness and their unfailing courtesy during these long hours.

The Joint Study Committee was formed in order to examine the data used by the Board of Supervisors in its salary ordinance decisions and, where the data was wrong, incomplete or misleading or where it was misinterpreted, to make recommendations for changes.

My opening statement to the first session of the Joint Study Committee defined my role as the eleventh member of the committee. I said then that I thought it to be that of a "convenor" or "facilitator" for the sessions, to see that the deliberations stayed within the confines previously agreed to by the parties to the settlement agreement. My final responsibility is to furnish my own report of the proceedings to the Board and thus to the people of our City.

During the course of the testimony it became very obvious to me that a wide variety of issues concerning the City's relations with its employees need to be addressed. However, many of the problems brought to our attention while urgent and important, fell outside of the narrow scope of the Joint Study Committee's charge. That is, they are not errors, omissions or misinterpretations of data used by the Board of Supervisors in *this* year's salary and wage setting process. Nevertheless, because I think it is important for future years, I am, in addition to making recommendations for such immediate changes in the wage package as fall within the committee's scope, submitting as part of my report, a list of recommendations for subsequent implementation in the hopes that we can profit from what has, for me at least, been a very intensive learning process.

I. Recommendations for Changes in the 1976 Pay Package

The following list of items requiring a change in this year's pay package are, in my opinion, the only ones which can with any degree of certainty be held to be corrective of errors in data or misinterpretations in the use of data. Cases made by other unions, while in many instances extremely compelling, do not in my opinion fall into the category of errors or omissions. Many such other legitimate concerns are, however, addressed in the second set of recommendations made in this report.

A) Premiums for Hazardous Duty: A number of city employee classifications are called upon to perform services which involve hazards over and above the hazards encountered by most of us in the performance of our duties. Bricklayers for instance are required to repair sewers while working under ground and in contact with raw sewage. Operating Engineers may be required to work in shafts and tunnels under construction while Glaziers and Electricians, Plumbers, Painters and others are required to work on exteriors at high elevations and in unguarded or swinging scaffolds. Traditionally, both the

City and the private sector recognize these added hazards by paying a premium for those hours during which the person works under such conditions. All of the evidence presented to the Study Committee indicates that these premiums were omitted by inadvertence when the salary data was considered. I am recommending that the premium be restored for 1976/1977 for each class of employment which received such premium pay during 1975/1976 and in a like amount per hour or day as was made available during that fiscal year.

B) Maintenance Machinists: The maintenance machinist's wage setting formula with private industry differs markedly from that used by almost all the other employees whose pay rates are similarly reported in the City's salary and wage survey and used by the Board of Supervisors in preparing the Salary Ordinance.

In almost all instances, the actual rate of pay paid by private industry for similar work is known at the time the survey is furnished to the Board of Supervisors and that data is used in the salary setting process. Not so with the maintenance machinists. A review of the 1976 ordinance shows that with one exception, all City employees previously covered by the now-repealed Charter Section 8.403 are to be paid a basic wage rate no less than the rate of basic wages they were receiving on March 31. The one exception is the maintenance machinist. The testimony shows that this is attributable solely to the peculiarities of the private contract procedure which precluded the possibility of getting the most recent data into the printed City survey.

If the *timing* sequence of the maintenance machinists' contract in the private sector were similar to the contract process of the other crafts with which the data deals, then the data in the printed survey would have shown basic wages higher by \$1.20 an hour than those printed in the book. During the process of negotiations a letter was directed to the negotiators for the Board pointing out that newer data had become available and that because of the contract timing peculiarities, the printed data was understated by \$1.20 an hour. However, no action ensued. It appears to me that this omission requires an equitable solution and it is therefore recommended that the maintenance machinist be given a rate of basic wages identical to that which the survey would have shown under other circumstances; an increase of \$1.20 an hour.

The cost of this correction would be \$114,013 this year of which \$79,761 would be local tax supported cost.

C) Electrical Transit Mechanic: Persons who make certain repairs to the Muni's rolling stock are, for historical reasons, represented by two different labor organizations. Those who work on buses are Automotive Mechanics, while those who

work on our electric trolleys and streetcars are Electrical Transit Mechanics.

Testimony before the Study Committee indicates that, because the end result of the work performed is so similar, it has been a fact that the City maintained a rough parity of pay for these two types of employees. The data as used by the Board in preparing the present ordinance destroys this relationship and results in a pay difference of 11.5% for classes 7319, 7379, 7380, and 7409. That is, these classes of electric transit mechanics will be 11.5% behind their fellow Muni employees working on non-electric automotive rolling stock.

It appears that in considering the data, the entirely rational relationship of these two types of employee who work side-by-side was overlooked, as was the fact that the Electric Transit Mechanic, in addition to the more usual type of repairs, must sometimes be prepared to work on electrical equipment carrying 900 live volts while perched on top of a stalled streetcar in the pouring rain.

It is my recommendation that the parity relationships which exist this year be maintained for next year. This would mean that the four Electrical Transit Mechanic classes mentioned above be brought up to within some 4% of the proposed rate of basic wages for automotive mechanics. The cost of this correction is \$150,418, all county tax cost.

Before going on to the second part of my report dealing with longer term recommendations, we must deal with the special case of the Laborers Union.

This organization signed an agreement before the other labor organizations agreed to a similar settlement. Indeed their process of committee study had already begun, with a completely different set of City representatives, when this present Joint Study Committee was established.

The earlier separate meetings concerning the various classes represented by the Laborers Union took a somewhat different course than did the subsequent meetings regarding the other striking unions. It is my understanding that various proposals were made by the union representatives concerning general laborers, street cleaners, and gardeners which gave promise for both immediate and long-term cost savings for the City.

In view of our continuing budget problems, such long term savings hold great interest for me. This is particularly so in view of the fact that the City has just lost a lawsuit relating to the streetsweepers with the result that large sums of money are owed to these classes.

Because of these potential savings, I recommend that a forum be established to continue to explore the proposals of the Laborers Union with a proviso that if mutual agreements satisfactory to a

majority of the members of the Board of Supervisors are reached, these agreements be made retro-active to July 1, 1976. In order for this to become possible, any panel constituted as a result of this recommendation must report in time to have its recommendations implemented before the September 15 deadline for establishing the City's tax rate.

II. Long Term Recommendations

Anyone listening to the testimony presented to the Joint Study Committee would, I think, have to agree with me that both sides have a lot to learn in how to properly manage the integration of City employees formerly covered by Charter Section 8.403 into the pool of City employees covered by Section 8.401. Indeed, we have a lot to learn in the whole area of public employment labor relations if we wish to be fair to both the taxpayers of the community and to the principle of "meeting and conferring" in a way calculated to avoid the insanity of a work stoppage.

The following section of my report lists (not necessarily in the order of importance) some of the issues which I believe must be addressed in the future:

A) **A common language:** On June 8, of this year, the people voted to instruct the Board to arrive at a definition of the term "prevailing wage" as used in our Charter. This will be very helpful. However, the method used in arriving at a definition must be fair and open. I would urge the Board to give representatives of employee organizations the widest possible opportunity to participate in the process of arriving at a commonly accepted definition of this most important of the terms used in establishing employee compensation. In this connection, we should note that there is also no commonly accepted basis for differentiating between "wages" and "fringe benefits" when seeking to compare public and private compensation levels. I suggest that during the process of consultations regarding the term "prevailing wage" an attempt be made to arrive at a generally accepted definition of what portion of compensation in private employment is, in fact, a "wage" and what portions are truly "fringe benefits."

B) **Reduce the "Lag":** In questioning the representatives of the Civil Service Commission, I was struck by the substantial lag period we are now required by law to build into our salary survey data. It appears that in some cases the employee will be paid on data that is some eighteen months old where he or she receives the final paycheck for the fiscal year.

We can and should reduce that lag by allowing the Civil Service Commission to submit its report in late April rather than February, as is now the case. This will assure comparability on a more current basis, thus preventing the large gap between public and private data which is now part of the system.

C) Repeal the "gag" rule: This ordinance, passed over my veto, which made it illegal for City employees or their representatives to talk about wages and conditions of employment to anyone other than the chief negotiator for the Board of Supervisors, should be repealed.

I believe it is not only an intolerable abridgement of constitutionally guaranteed rights of both sides, but it is also vastly counter-productive since the inability to have face-to-face discussions between the principals almost certainly retards the process of ultimate problem resolution.

D) Review Civil Service Qualification Requirements: Testimony to the Joint Study Committee indicated that in many cases our City's mandatory requirements for employment in craft classifications far exceeded that which is required in other jurisdictions and in many cases far exceed what is rational. This has the undesirable effect of artificially narrowing the eligibility lists and of bringing into question the comparability of data from those other public jurisdictions which are unburdened by such extraneous requirements. Public jurisdictions generally find "journeyman" status sufficient qualification to accomplish the necessary work, as do most private employers.

I recommend, therefore, that the Civil Service Commission restudy its minimum qualifications so that in all cases achievement of journeyman status in the crafts is sufficient qualification to apply to City employment, thereby allowing for lower salary ranges while maintaining highly qualified personnel.

E) Restudy Benchmarks: I can find no fault with the basic benchmark system so long as the relationships established in the salary survey are rational and so long as those classifications which have major independent status in private industry are not artificially aligned with a city classification which denies them that independent status.

During the course of the hearings several questions were raised regarding benchmark relationships. I recommend that the Civil Service Commission restudy all the relationships in the current survey with particular emphasis on the following classes:

1. Powerhouse operators
2. Roofers
3. Pilemen
4. Shade and draperymen

If it appears that these classes (or any others) should be separately surveyed, we should be assured that this status will be granted for the purpose of future salary standardization.

F) In-House vs. Outside Contracting: Testimony at the

hearings revealed that in many instances San Francisco County is the only public jurisdiction which employs certain craft classifications. All other public jurisdictions simply contract for certain services with private enterprise. Our present picture results in dozens of city classifications filled by as few as one or two persons, seldom more than a dozen. The reasons for this practice apparently reach back to the days in which there was corruption in the City's contracting procedure.

Those days are long gone and it would seem to me that we should now join the rest of the state in allowing these specialized jobs to be performed by private industry rather than City employees.

I recommend that we study the possibility of "red circling" many of these classifications and, as soon as retirements and other attrition result in the class being vacant, look toward abolishing the classification and allowing our departmental managers to buy these sources on an "as needed" basis from private contractors.

G) Time for Negotiations: A combination of circumstances, largely beyond anyone's control, resulted in a severely foreshortened period for negotiations with various union groups. Considering the little time available, the negotiators for both sides must be complimented for reaching agreements covering some 92% of our employees. Nevertheless, testimony at the hearings revealed that several labor organizations did receive only the briefest time to make their cases. This is detrimental to the process, hurting as it does, both sides in that a case not properly heard cannot be properly resolved.

There is little doubt that our time constraints combined with the "gag rule" aggravated a situation already made extremely difficult by the repeal of Section 8.403.

Statement of Labor Delegation to the Fact-Finding Committee:

June 16, 1976

Honorable George R. Moscone
Mayor of San Francisco
Room 200, City Hall
San Francisco, Ca. 94102

Honorable Members of the Board of Supervisors
Attn: Gilbert Boreman, Clerk of the Board of Supervisors
City Hall
San Francisco, Ca. 94102

Dear Mr. Mayor and Members of the Board:

This is written on the day before the Joint Fact-Finding Com-

mittee on Salary Standardization apparently intends to meet with the Board of Supervisors, sitting as a Committee of the Whole, to consider the facts found and the recommendations based upon those facts.

We say "apparently" because as of this late date we have had no notice from your office or the office of the Board of Supervisors concerning the date, time and place of the Committee of the Whole's meeting, or whether the meeting will be public or restricted.

In any event, at the final meeting of the Joint Fact-Finding Committee, on the evening of June 14th, two days ago, for the first time it was brought to the attention of the labor delegates that it is not the intention of Mayor and the Supervisor members to join with labor representatives in discussing the facts and formulating recommendations as a Committee.

Instead, and very much to our concern and dismay, we were informed by you and the Supervisors present that it is your intention to draft six separate sets of fact-finding and recommendations predicated thereon. You intend to do so as individuals, and not as a Committee-entity. Then, presumably, the six individual collections of recommendations will be submitted to each member of the Board of Supervisors, who will be put to the Herculean task of correlating them, and relating them for comparative purposes, at least, to the voluminous written representations submitted by labor spokesmen.

Realistically, from the standpoint of time limitations alone, the task contemplated for each Supervisor is impossible of accomplishment. And because due consideration cannot be given to labor's painstakingly careful and detailed arguments in support of fair treatment for the working man, once again we have been denied the right to a fair hearing.

But it should be of even more concern to the general public that its elected representatives — the officials elected to represent all citizens, including thousands and thousands of craftsmen and members of their families, have not observed the terms of their agreement in their last-minute about-face concerning the fact-finding process.

Labor leaders assembled last month and agreed that workers would return to their jobs while discussions of fair wages and working conditions were renewed with City officials. A major point of persuasion in reaching that agreement was the basic idea of former mayor George Christopher's proposal that a "joint committee shall be appointed" and "appoint a chairman who shall have an equal vote," that "the committee shall meet continuously to analyze the data and ultimately make a public recommendation," and that "the joint committee will be the recommending source."

It is particularly indicative of the now revealed lack of conformity to our agreement when we note the terms of the Board of Supervisors' written acquiescence to the committee proposal. The Board on May 7 specified: "A Joint Study Committee shall be appointed," which shall "recommend, in writing, to the Committee of the Whole of the Board of Supervisors the wages, hours, etc., etc.," and "the Committee of the Whole shall consider *such findings and recommendations*."

Repeated press accounts confirmed everyone's understanding that we would have a report and recommendations from the Fact-Finding Committee, and not a series of individual reports from Committee members. Excerpts from local press articles include these:

Examiner, 5-7-76: "The plan calls for an immediate return to work . . . It hinges on creation of an 11-member fact-finding or study committee to analyze issues in the pay dispute and make a recommendation to the Supervisors. The Supervisors suggested Mayor Moscone as the 11th and tie-breaking vote."

Examiner, 5-10-76: "The five Supervisors will join the five labor members named by the strike committee over the weekend and Mayor Moscone in preparing the committee's report."

Chronicle, 5-11-76, quoting Supervisor Kopp: "The idea that the Mayor should sit on the study group and cast its deciding vote had been proposed by the negotiator representing the Board of Supervisors at a meeting attended by the Mayor."

Examiner, 5-11-76: "Meanwhile, the first meeting of the fact-finding committee created as part of the back-to-work agreement was set for Thursday. The committee includes five Supervisors, five labor leaders and Mayor Moscone, who holds the potentially tie-breaking vote."

Chronicle, 5-14-76: "In fact-finding sessions, the committee will hear union and city staff reports on prevailing rates in private industry and other major governments and make recommendations on whether the pay cuts that touched off the strike should be modified."

Examiner & Chronicle, 5-16-76: "Meanwhile, the 11-member wage survey board established in the strike settlement still must report."

Chronicle, 6-16-76 (Today): "... the strike fact-finding committee . . . will issue its report this week."

Labor, in its willingness to discuss terms of employment for City craftsmen, which would be more in keeping with realistic comparisons, agreed to the formation of a fact-finding body charged with the duty of submitting recommendations. Labor felt that a Civil Service Commission recommendation of "no increase"

which was disregarded by the Board of Supervisors for more than 90% of the employees involved, who were then given wage increases, could not reasonably be used as the basis for reducing wages of the remaining 10%; mostly in the craft category.

Labor feels that the recommendations from the Fact-Finding Committee should be just that — from a study body acting as a whole — and not from 11 different members, or fragmented groups thereof, acting independently of each other. Certainly, that is not the manner in which the Board of Supervisors itself, for example, acts and votes. Certainly, that is not the manner whereby a meeting of the collective mind can be accomplished.

We trust that the City-official members of the Fact-Finding Committee will honor their agreement to formulate Committee, rather than individual, recommendations.

Sincerely,

**LABOR DELEGATION TO THE
FACT-FINDING COMMITTEE**

Joseph P. Mazzola
Franz E. Glen
Stanley M. Smith
Stanley E. Jensen

June 21, 1976

STATEMENT BY SUPERVISOR JOHN L. MOLINARI,
CHAIRMAN, BOARD OF SUPERVISORS MEMBERS
JOINT STUDY COMMITTEE

I. The Board of Supervisors and the Labor Committee and Laborers Local #261 entered into agreements on May 8, 1976 to jointly study facts concerning the wages, hours and other terms and conditions of employment of the seventeen unions that had struck the City and County of San Francisco for thirty-nine days last month.

The Labor Committee appointed a five-man delegation consisting of Mr. Joseph O'Sullivan, Chairman, and Mr. Franz Glen, Mr. Joseph Mazzola, Mr. Stanley Jensen and Mr. Stan Smith. The Board of Supervisors' committee consisted of Supervisor Dianne Feinstein, Supervisor Terry A. Francois, Supervisor Robert H. Mendelsohn, Supervisor Dorothy von Beroldingen and Supervisor Alfred J. Nelder (as an alternate) and myself as Chairman. Mayor George R. Moscone served as convenor and facilitator of the meetings and performed ably in that position. The Mayor provided leadership, and by insightful questioning brought many details to the attention of the Joint Study Committee.

Meetings began on May 13, 1976, and concluded on June 14, 1976. Eleven separate meetings consisting of thirty-two hours were held, and every union that wished to make a presentation was given ample opportunity to present the facts surrounding its particular situation. In addition, over 3,000 pages of documentation were submitted for review by members of the Joint Study Committee.

A separate agreement with Laborers Union Local #261, AFL-CIO, provided for a series of three meetings consisting of seven hours between the committee representatives of that Union, Mr. George Evankovich, Mr. C. R. "Bud" Johnston, Mr. William Nevins, Mr. Sal Minerva and Mr. Victor Van Bourg, and the

members of the Board of Supervisors and the Mayor in which facts surrounding the wages, hours and working conditions of members of that Union were discussed in detail.

By mutual agreement all meetings of the Joint Study Committee were open to the public and interested members of the community were present at every meeting as well as representatives of the news media.

Every effort was made by all the participants to discuss fully every detail surrounding the employment of craft employees in San Francisco.

We compliment all the unions who participated in the process for their professional approach, obvious expertise, and the thoroughness of their presentations. The unions that offered explanatory material and presentations were:

Bricklayers Union, Local No. 7
Carpenters Brotherhood, Local Union No. 22
Cement Masons, Local No. 580
Glaziers and Glassworkers Union, Local No. 718
Hod Carriers, Local No. 36
International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers, Local No. 6
International Brotherhood of Electrical Workers, Local No. 6
Iron Workers, Bridge Structural Ornamental & Reinforced Local Union No. 377
Laborers International Union of North America, Local No. 261
Lodge 68, District 115, International Association of Machinists and Aerospace Workers
Piledrivers Union, Local No. 34
Plasterers' Union, Local No. 66
Roofers, Local No. 40
Sheet Metal Workers International Association, Local No. 104
Tile Layers, Local No. 19
United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry, Local No. 38
Upholsterers International Union of North America, Local No. 3

In many instances, the unions were assisted in the presentations by counsel, Mr. John Anderson, Mr. Robert J. Dolan, Mr. Stanley Neyhard and Mr. Victor Van Bourg represented the unions before the Joint Study Committee.

In addition to the oral presentations, the unions submitted an abundance of material in support of their position, which is presented to the Board of Supervisors today as part of the file and is available for inspection by members of the Board and the general public.

The Joint Study Committee was also assisted by the staff of the Civil Service Commission. The staff explained in detail the method by which the Civil Service Commission conducted its salary survey and the methods used this year in surveying the craft unions using the benchmark system.

II. The presentations from the various unions were detailed, complex and very ably presented. It would serve no practical purpose to repeat them in their entirety, but for the impact they had on the Joint Study Committee I would like to present to the Board the main thrust of the arguments presented.

It was clear from the majority of the presentations that the unions wanted to limit the salary survey to the rates being paid under their union contracts as of June 30, 1976, including any health and welfare payments that were made by the private industry employer.

Some unions challenged the validity of the benchmark approach to salary surveying done by the Civil Service Commission and urged that each craft be surveyed separately rather than being related to a benchmark classification. Other unions challenged the applicability of certain crafts to the benchmark to which they were related.

The majority of testimony was directed to the idea of prevailing rate and the use and intent of that term as it applies to the use of

- (1) Public jurisdiction data or,
- (2) Private industry data in the Bay Area, or,
- (3) The union contract rate in private industry in San Francisco.

The union attorneys researched the origins of Section 8.401 of the Charter as it applied to the crafts before enactment of Section 8.403 and alleged that the intent of that section was to pay the San Francisco union contract rate.

A number of the unions, specifically the Electricians, Plumbers and Glaziers, contended that certain amounts that had previously been included in wages as computed by the Civil Service Commission should have been used in calculating the rate of pay in effect on March 31, 1976. These amounts are what is referred to as beneficial savings or a beneficial trust in which a certain amount is paid by the employer into a trust or bank for the employee's benefit and is subject to withdrawal by the employee on demand. The unions argued that this was erroneously deducted before the computation was made to determine the July 1st rate in the Ordinance as adopted.

Certain crafts argued that the Civil Service Commission requires more journeyman experience beyond apprenticeship than comparable public jurisdictions or that which is required in private

industry and therefore those crafts should be compensated at a higher rate.

Some unions questioned benefits received by employees of non-striking unions and contended that the willingness of certain worker to refrain from participating in a strike which the Courts had declared illegal should not be considered as a basis for any sort of preferential treatment.

A number of unions contended that they had been given insufficient time to negotiate with the Board's Chief Labor Negotiator prior to the Charter imposed due date. The former Director of Employee Relations resigned unexpectedly on January 23, 1976, immediately prior to the initiation of the meet and confer process. The Board quickly began a recruitment and selection process which culminated in the hiring of its own Chief Labor Negotiator on February 17, 1976.

The Board of Supervisors' committee pointed out that the Chief Labor Negotiator attempted to meet with all thirty-five unions that expressed a written desire to meet and confer and that the Board of Supervisors is impressed with the fact that he concluded agreements with twenty-one of these unions. In addition, it must be pointed out that each of the seventeen striking unions had continuous meetings with the Chief Labor Negotiator during the thirty-nine days of the strike.

The Laborers Union, unlike most of the unions, made specific wage proposals. The cost of their basic proposal over the Ordinance as previously approved by the Board is approximately \$2.6 million.

A number of unions presented contracts which had effective dates of salary increases subsequent to July 1, 1975. Since the effective dates were after the deadline imposed by Charter Section 8.403, City and County employees in those unions have not received the benefit of that increase negotiated in private industry. It was the position of those unions that the Board of Supervisors should have taken that into consideration when they established the March 31, 1976 cut-off for rates in effect as of that date. This would have meant that the rate in the 1976-77 Salary Standardization Ordinance would have been based on the union rate in private industry rather than the rate of pay in effect for City and County employees on that particular date.

III. The Joint Study Committee has reviewed the evidence submitted by the various unions during the course of the meetings of the Committee. The bulk of testimony clearly identified a basic difference in philosophy between the labor members of the Committee and the Board of Supervisors' members. A majority of the labor members consistently maintained a position that the various provisions of the union contracts including wages, hours, health and welfare benefits and working conditions should remain the same on July 1, 1976, as will be in effect on June 30, 1976. The

Board of Supervisors' members maintained their position that *the mandate of the electorate in repealing Section 8.403 of the Charter, under the authority of Proposition B, meant that craft City and County employees should no longer enjoy special status and should be treated substantially the same as are other City and County employees.*

The Board of Supervisors' members felt that the benchmark approach to salary surveying is a universally accepted personnel practice, which had been instituted some years back, in fact, at the urging of City and County employee organizations. While the Board of Supervisors' members felt that the benchmark approach should be retained, the hearings disclosed that certain relationships might be refined and these have been called to the attention of the Civil Service Commission.

With respect to the repeated attacks on "prevailing rate" as utilized by the Board, the Board of Supervisors' members are relying on the City Attorney's opinion which sets forth the responsibility of the Board of Supervisors in setting prevailing rates under Section 8.401. That opinion states:

"... that the Civil Service Commission must present a proposed schedule of compensations to the Board of Supervisors, which schedule is based on a 'comprehensive investigation and survey' of private employment and governmental agencies throughout the State of California. A comprehensive investigation and survey contemplates a review of all private and governmental employers in this state which have employments comparable to the classifications in the city and county service . . ."

The Board of Supervisors' members also note the passage of Proposition J on June 8, 1976 which requires that a definition of prevailing rates be submitted to the electorate at the November election for a final determination of that question.

With respect to the contention that the various types of employee savings plans should have been included in the March 31st rate of pay as basic hourly wage rates, the Board of Supervisors' members remind the Board that it was clearly their intent to endeavor to soften the impact of the loss of payment of in-lieu fringes which resulted from passage of Proposition B to the extent it was feasible, in fairness to City and County employees and the taxpayers. The decision was made to pay the March 31st wage rate less certain emoluments, to wit, in-lieu payments for health benefits and holidays, and to eliminate the beneficial savings, however they may be defined.

IV. The Board of Supervisors members believe that no facts of sufficient substance were presented that would warrant a recommendation by the Joint Committee that an emergency be declared in order to revise the 1976-77 Salary Standardization Ordinance. However, the Board of Supervisors members of the Joint Study

Committee recommend the following to the Board of Supervisors:

1. We believe it was not the intent of the Board of Supervisors, and in fact it was discussed in executive session caucuses, to remove premium pay that had been paid in the past for recognizable hazardous duty. The Civil Service Commission staff has prepared a listing of these premium rates of pay and the classifications eligible to earn said rates. (Attachment A)

Therefore, we recommend to the Board of Supervisors that this clerical error be rectified.

2. We were impressed by the offer of the unions representing 7376 Sheet Metal Worker, 7247, Sheet Metal Worker General Foreman, and 9345 Sheet Metal Foreman, Port, who currently work a 37½ hour week, and 7307 Bricklayer, who currently work a 35 hour week, to increase their work week to 40 hours.

Therefore, we recommend to the Board of Supervisors that serious consideration be given next year to increasing the work week for these classifications to 40 hours.

3. We believe that the unions representing the classifications of Pileman, Powerhouse Operator, Shade and Drapery Man, Tile-setter, Roofer and related classes presented cogent arguments questioning the correctness of the relationship of the above classes to their current benchmark.

Therefore, we recommend to the Board of Supervisors that the Civil Service Commission be requested to re-evaluate the applicability of the above classifications to their current benchmarks.

4. Certain crafts argued that the Civil Service Commission requires more journeyman experience beyond apprenticeship than comparable public jurisdictions or as is required in private industry and, therefore, those crafts should be compensated at a higher rate.

Therefore, we recommend to the Board of Supervisors that the Civil Service Commission be requested to delete the requirement for journeyman experience beyond apprenticeship for all crafts.

Subsequently, following discussion, Supervisor Molinari directed that a letter from the Civil Service Commission dated June 21, 1976, regarding an estimate of cost figures as an analysis of the recommendations of the Study Committee report, be attached to said Statement. That letter reads as follows:

June 21, 1976

Mr. Gilbert Boreman
Clerk of the Board
235 City Hall
San Francisco, Ca 94102

Dear Mr. Boreman

This is in response to your letter of June 18, 1976, File No. 106-76-8, wherein you request that we develop estimated cost figures for adjustment recommended by the Board representative on the Study Committee.

An analysis of the recommendations contained in the report of the Committee reveals the following:

Recommendation #1. The best approach to a cost estimate for this recommendation is an analysis of the department's budgeted funds for these working conditions. Mr. Fong is calculating these costs on behalf of the Controller in response to this same communication. Cost estimates throughout the salary standardization process have been developed through the Board's Cost Committee and this procedure should remain consistent.

Recommendations 2 through 4 do not involve any changes in working conditions or benefits for fiscal year 1976-77; therefore, there is no additional cost involved for fiscal year 1976-77.

Recommendation #2 is a recommendation that the Board of Supervisors consider an increase in the number of weekly hours for certain classes for next year (FY 1977-1978).

Recommendation #3 relates to the re-evaluation of the application of the benchmark system to a certain classification.

Recommendation #4 is relative to the change in minimum requirements on the examination announcements for recruitment in the craft classifications.

I feel that the estimate that the Controller is submitting to you in response to this communication is the best estimate available and is in response to Recommendation #1.

Very truly yours,
BERNARD ORSI
General Manager, Personnel

Statement of Supervisor Molinari

Supervisor Molinari requested that his following remarks be made a part of the recorded proceedings:

“Based upon the facts that (1) the Board of Supervisors has, by adopted budget action, deleted funding for (a) the Trust Fund, (b) cost of living, (c) sick pay, and (d) industrial injury (accident pay) of approximately \$5 million dollars, and based upon the further fact that (2) the Transport Workers Union has been fully aware of the \$5 million dollar budget deletion for the past 75 days or more, and further that the offer of the Transport Workers Union is manifestly also based upon those facts, therefore the Board of Supervisors agrees to the union’s demand of a 1.8% increase, not to exceed \$639,013.”

Chairman Pro Tempore

The President appointed Supervisor Gonzales as chairman pro tempore.

Supervisor Kopp stated that even though there would be diminution in next year's tax rate of only \$5,000,000 by doing so, extending the period of time for amortization of retirement liabilities from 14 years to 20 years would increase the total cost to taxpayers by \$31,804,000 over that period of time and would leave a legacy to our descendants which is unfair and unjustifiable.

Supervisor Barbagelata moved to amend Section 5 of the pending legislation to include a lack of operating equipment as a further exception from the guaranteed forty hour work week.

Motion failed for lack of a second.

Statement of Supervisor Barbagelata

Supervisor Barbagelata requested that the following statement be included in the Journal of Proceedings:

“This is my statement for the record:

“The action of the Board in finally passing an ordinance which was not the same as was passed for second reading last week could subject the Board to a taxpayers’ lawsuit inasmuch as the ordinance passed for second reading (1) did not contain a reference to the Memorandum of Understanding with the Transport Workers Union, and (2) did not detail the conditions and benefits of employment under sections 5 through 29. These provisions, in detail, were incorporated in the ordinance passed for final reading.

“The only action taken by the Board at the second reading was to amend the ordinance, which did not include the provisions above, as follows:

‘August 19, 1976—Excerpt from Board Meeting, 11:20 p.m.:
‘Supervisor Molinari: Motion to amend ordinance as follows:
‘Base rate of pay—\$7.4625 per hour, at cost of approximately \$2.9 million; cost of living increase—\$1 million; trust fund, \$1.4 million; industrial accidents, same as for other City and County employees. Included in these figures is gross cost of \$5.4 million, net cost \$4.8 million. Also included is an extra holiday at \$155,000 cost; life insurance, \$35,000; uniforms, \$23,000.

‘Seconded: Supervisor von Beroldingen’.”

Upon questioning by Supervisor Molinari, Deputy City Attorney James J. Stark responded that the ordinance is properly before the Board and is the same as that passed by the Board last week.

Statement by Supervisor Molinari

Supervisor Molinari pointed out that it was his intent in moving consideration of the ordinance fixing schedules of compensa-

tion under Charter Section 8.404 that such ordinance include by reference the memorandum of understanding between the Transport Workers Union of America AFL-CIO, Local 250-A, and the City and County of San Francisco, for fiscal year 1976-77.

Thereupon the roll was called and the ordinance was finally passed by the following vote:

Ayes: Supervisors Feinstein, Francois, Gonzales, Kopp, Mendelsohn, Molinari, Pelosi, von Beroldingen—8.

No: Supervisor Barbagelata—1.

Absent: Supervisors Nelder, Tamaras—2.
